

Exam Blueprint – Crime Scene Management

Below is the exam blueprint based off the job task analysis, SME, and IFPO psychometric process to verify reliability, validity, and fairness. The tables below identify the proportion of questions from each domain and passing score that will appear on the assessment. The assessment will include the application of concepts, knowledge and comprehension, definitions, synthesis, evaluation, development of conclusions, ideas and recommendations for action based on hypothetical situations.

Domain	Percentage of Items on Test	% of exam questions	Number of Questions (100)
Arriving at the Scene	15%	15%	10
Preliminary documentation & scene evaluation	25%	25%	10
Processing the crime scene	25%	25%	40
CSI completion & recording	25%	25%	25
Crime scene equipment	15%	15%	15
		Passing %: 80	Passing Score: 80
